PROFESSIONAL SUMMARY

Experienced Cybersecurity Consultant and Senior Pentester with a strong background in penetration testing, vulnerability assessment, and compliance (PCI-DSS, ISO 27001). Successfully delivered over 30 offensive security projects for international clients across the US, India, Saudi Arabia, and Brazil. Skilled in identifying high-impact vulnerabilities and providing actionable remediation guidance. Proven ability to work independently with remote teams and communicate effectively with technical and non-technical stakeholders.

Looking for full-time remote opportunities with a focus on offensive security and consulting.

PROFESSIONAL EXPERIENCE

OISECURITY (SELF-EMPLOYED) – REMOTE

Owner & Cybersecurity Consultant

Dec 2024 – Present

- Founded a cybersecurity consultancy focused on helping startups and SMBs improve their security posture
- Delivered penetration tests and compliance support for clients in Brazil and Saudi Arabia (PCI-DSS, SAMA)
- Supported PCI-DSS assessments in collaboration with Intersec Worldwide

REDBELT SECURITY – BRAZIL (HYBRID)

Senior Penetration Testing Consultant

Feb 2025 (Contract, short-term)

- Worked with the Red Team on assessments for large national clients
- Engagement concluded early by mutual agreement due to project alignment

INTERSEC WORLDWIDE – USA (REMOTE)

Principal Cybersecurity Consultant

Oct 2024 – Mar 2025

- Led penetration tests on web apps, VPNs, networks, and cloud environments
- Identified and prioritized 50+ vulnerabilities, with 85% mitigated within the project
- Reduced average remediation time from 30 to 15 days via structured stakeholder communication
- Delivered final retests contributing to successful PCI-DSS certification

CYBERNETIK CO. – USA (REMOTE)

Senior Penetration Tester

Aug 2023 – Oct 2024

- Conducted over 30 international penetration tests across critical environments
- Discovered 300+ vulnerabilities, including high-risk misconfigurations
- Managed client communications, updates, and documentation throughout test lifecycles

Penetration Tester

Aug 2022 – Aug 2023

- Performed manual web app testing using Burp Suite Pro
- Found common vulnerabilities: SQLi, XSS, IDOR, and broken access control
- Used MobSF, Jadx, and Frida for mobile testing (Android/iOS)
- Automated tasks using Nessus, OpenVAS, and custom scripts

Information Security Intern

Sep 2021 – Aug 2022

- Supported vulnerability assessments and incident response
- Drafted security reports and root cause analysis
- Gained experience with SIEM tools and SOC operations

CERTIFICATIONS

- (ISC)2 Certified in Cybersecurity (CC)
- eJPT (eLearnSecurity Junior Penetration Tester)
- SYCP (Solyd Certified Pentester)
- ISO 27001 Associate
- CAPC (Cybersecurity Awareness Professional Certified)
- LGPD Professional
